Rate Ordinance for the Delaware County Regional Waste District Wholesale Rate

In what I am hoping is the last item associated with the waste water treatment plant upgrades project for a while, this ordinance amends the wholesale rate for Delaware County Regional District. As I mentioned during the meeting on Wednesday, the methodology has changed slightly in how the original rate was passed in January.

The methodology changes the proportion of the project associated with the headworks and the volume of the waste provided by DCRWD.

Due to the change in methodology and ultimately the rate, the town must go through the same rate changing procedures as normal, although this ordinance only affects the wholesale customer.

I recommend introduction of the ordinance.

Respectfully,

Pete Olson
Town Manager
