

CD140M Dri-Prime® Pump

The Godwin Dri-Prime CD140M pump offers flow rates to 1240 USGPM and has the capability of handling solids up to 3.0" in diameter.

The CD140M is able to automatically prime to 28' of suction lift from dry. Automatic or manual starting/stopping available through integral mounted control panel or optional wireless-remote access.

Indefinite dry-running is no problem due to the unique Godwin liquid bath mechanical seal design. Solids handling, dry-running, and portability make the CD140M the perfect choice for dewatering and bypass applications.

Features and Benefits

- Dri-Prime (continuously operated Venturi air ejector priming device) requiring no periodic adjustment. Optional compressor clutch available.
- Extensive application flexibility handling sewage, slurries, and liquids with solids up to 3.0" in diameter.
- Dry-running high pressure liquid bath mechanical seal with high abrasion resistant solid silicon carbide faces.
- Close-coupled centrifugal pump with Dri-Prime system coupled to a diesel engine or electric motor.
- All cast iron construction (stainless steel construction option available) with cast steel impeller.
- Also available in a critically silenced unit which reduces noise levels to less than 70 dBA at 30'.
- Standard engine John Deere 4045TF285 (T3 Flex). Also available with John Deere 4045HFC92 (IT4).

**RE: CD104M Sale
Sale Quotation 137002939**

Dear Mr. Neff:

Thank you for your interest in Xylem Dewatering Solutions. Per your request, we are pleased to provide the following sale quotation for a new four (4) inch high head diesel pumping equipment model CD140M.

The Godwin Dri-Prime® Model CD140M is a four (4) inch diesel, auto-priming pumpset. This pumpset has maximum flow capabilities of 1,240 Gallons per Minute (GPM), 260 feet of Total Dynamic Head (TDH) maximum and solids handling up to three (3) inches in diameter. This pumpset can handle a wide variety of applications.

This pumpset has the following features;

- Pump can handle raw sewage, sludge and liquids
- Automatic priming from dry up to 28 feet
- Cast steel impeller
- Trailer Mounted
- Interim tier 4 compliant
- Liquid bath mechanical seal for dry running indefinitely
- Double walled fuel tanks for environmental protection
- Prime Guard Controller

As you may know, the Godwin Dri-Prime® is a totally automatic self-priming centrifugal pump, which can achieve suction lifts from a completely dry condition to 28 feet. The priming system utilizes a compressor, driven directly off the engine, which moves air across a set of venturis. This action creates a vacuum, drawing the water into the pump. The pump is primed automatically, quickly and repeatedly as needed.

Home Office:

We are including a specification sheet, along with a pump curve, on each model, for your reference.

As a standard option we have included our PrimeGuard Controller which will activate the automatic start / stop float system along with a number of other electronic functions. The PrimeGuard can also assist you with scheduled maintenance, pump diagnostics, and the ability to have remote monitoring of the pumping system when it is equipped with Field Smart Technology (FST).

Also, we have included heavy duty suction hose, suction screen, and layflat discharge hose. The hose is listed with Godwin Quick Disconnect (QD) fittings and Cam & Groove fittings, for your reference.

Once you have had time to review the attached documents and system curves, we would like to schedule a time to bring a demo pump to your facility and discuss the features in greater detail.

The pumpset can be delivered within four (4) to six (6) weeks, upon receipt of your purchase order.

We are quoting this pumpset at General Services Administration (GSA) pricing.

Please keep in mind that Xylem Dewatering Solutions is responsive around the clock to make sure your complete satisfaction is guaranteed before, during and after your purchase. If you have any questions or require additional information, please feel free to contact me directly at 317-945-4161 or the office at 317-217-5131. We look forward to assisting you with this purchase.

Sincerely,
