

PROPOSAL

Issue:

Our emergency generator at the Wastewater Treatment Plant is over 30 years old, is failing, and is past due for replacement. The radiator is leaking and is unable to be replaced.

Proposal:

BF&S has submitted the following proposal to assist the town in procuring a replacement. They will correctly size the new generator and transfer switch, design a new exterior concrete pad, provide procurement assistance, and coordinate decommissioning of the existing generator.

Cost:

\$26,500.00 (not to exceed)

Cost to be paid from Sewer Professional Services 6201001338
